

Written and composed by Adam and Jessica Kelly

Golden sky

I've got a golden sky in front of me
I've got a golden sky in front of me
And I don't know what it's gonna be
Tomorrow when I rise

I can hear the angels playing
I can hear the angels playing
And the future isn't saying
That the past is here to stay

And I know, I'm going
I'm going where the sun is shining
It might take some time
But every cloud has got a silver lining
And I'm happy to be on the way

There will be crossroads coming up ahead
There will be crossroads coming up ahead
And the worries of the walking dead
Do not worry me at all

I can see a rainbow in the sky
I can see a rainbow in the sky
And it's telling me I'm gonna fly
No more cloudy days
