

Written and composed by Adam and Jessica Kelly

## **We see the light**

Shimmering bold with a heart of gold  
Is the one for me  
Peeling my eyes from the great disguise  
Is what it does for me  
Come with me into my world  
Like a bird on the breeze  
Through a storm you will see my world  
And I promise not with ease

Light we see the light  
Sweeter light  
Through bitter nights

Carry your cross and I'll carry mine  
To the mountaintop we go  
You won't look down if you pride yourself  
Be persistent take it slow  
I get stronger every time I bleed  
Like welded steel I am  
Every tear I'm a little closer  
To the mystery of her plan
